

JATSS Artificial Intelligence (AI) / Generative AI (GenAI) Use Declaration Form

Our journal's policy on the use of artificial intelligence/generative artificial intelligence is implemented by taking into account the “Ethical Guidelines on the Use of Generative Artificial Intelligence in Scientific Research and Publication Activities of Higher Education Institutions” of the Council of Higher Education (YÖK), the “Guidelines for the Responsible and Reliable Use of Generative Artificial Intelligence (GenAI) in Support Processes” of TÜBİTAK, and the principles and recommendations of the Committee on Publication Ethics (COPE) regarding the use of artificial intelligence. Authors are fully responsible for the accuracy, originality, integrity, and ethical compliance of the scientific content of the manuscript. The use of artificial intelligence/generative artificial intelligence tools does not eliminate or reduce this responsibility. Therefore, authors are responsible for all publication ethics violations in the manuscript.
